Open Research is a publicly accessible, curated repository for the preservation and dissemination of scholarly and creative output of the OCAD University community. Material in Open Research is open access and made available via the consent of the author and/or rights holder on a non-exclusive basis.

The OCAD University Library is committed to accessibility as outlined in the [Ontario Human Rights Code](#) and the [Accessibility for Ontarians with Disabilities Act \(AODA\)](#) and is working to improve accessibility of the Open Research Repository collection. If you require an accessible version of a repository item contact us at repository@ocadu.ca.

The concept of blockchain

Yuchen Wang

Application of blockchain

Process related

Extend application in other fields

Art = Token \$

The public give value, not investors or politicians

Copy right protection

Personal work can be traced back and validated to prove originality no matter how many times it been replicated.

Smart contract

Based on blockchain, the labor force can be traced and regulated, which increase the flexibility for people to cooperate

Extendable and autonomous

Holistic system

Net work of the project

Elements of a circular economy
